March 16, 2020

In order mitigate the risk of spreading disease, we have decided to suspend any self-service of food and beverage at The University Club until further notice.

This means that we will no longer have our buffet in our Main Dining Room; rather, we will still offer the daily lunch buffet menu, but our staff will serve you instead of guests serving themselves. We will still offer our a la carte and dessert menus.

We appreciate your patience and understanding as the COVID-19 situation is ongoing. Please email us at ucevents@uclub.ua.edu with any questions. This email will be monitored during closure, but may have some delay in responding.

Sincerely,
The University Club

March 13, 2020

With all the recent developments regarding COVID-19 and The University of Alabama, we wanted to reach out to our club membership and let everyone know what our current plans are.

As of right now, The University Club will resume normal operations again on Monday, 3/23 as originally scheduled, and we will continue to operate as usual until further notice.

We are staying vigilant and enacting additional policies to help mitigate the risk of spreading disease here at the Club. Policies and initiatives that we have already or will enact include:

- Provided additional training for UClub employees on how to prevent the spread of COVID-19 and proper sanitizing procedures
Increasing hand-washing frequency, increasing the frequency of changing gloves
Frequent sanitization of high-touch surfaces throughout the Club
Installing additional hand sanitizing stations throughout the Club
Discontinuing the use of personal cups
Changing out service utensils for self-serve buffet service every 30 minutes

We are committed to your health and safety. We will continue to watch this situation very closely and keep you updated as quickly as possible with any changes.

Please email us at ucevents@uclu.edu with any questions. This email will be monitored during closure, but may have some delay in responding.

Sincerely,
The University Club
