[www.acuclubs.org](http://www.acuclubs.org)

The Association of College & University Clubs was founded in 1978. With more than 100 participating clubs worldwide, the Association is your link to an international community of members-only clubs on or near the campuses of the world's leading colleges and universities. As a member of The University Club at The University of Alabama, you enjoy reciprocal privileges at clubs throughout Canada, the United States, Europe, Australia, and Asia. The Association of College & University Clubs creates global awareness of the services provided by university and faculty clubs in their role as campus hosts. As hospitality providers, university clubs promote collegiality, social interaction and enhanced communication among members of academic and professional communities.

A list of participating clubs is available on the ACUC website ([www.acuclubs.org](http://www.acuclubs.org)). Each club in the Association is a unique reflection of the university community that it serves. The hours of operation, facilities, and services offered may be quite different from club to club. For your convenience in planning visits to other clubs, the Association website includes a list of all clubs by geographical location, along with information about available services and links to the club website. To ensure an enjoyable visit to another university club, it is important to telephone ahead to confirm the club's hours and services and to make reservations. Individual clubs may have restrictions in the use of their facilities, so be sure to inquire regarding any restrictions when you call.
